

MICHAEL JOE B. SALUDARES

Mobile: 09178027085

Email Address: michaeljoe.saludares@gmail.com

Home Address: 2140 Taylo Street, Pasay City, 1300

Programming Skills

- Object-Oriented Programming (OOP): Java, C#
- C# .NET Framework: WinForms and WPF
- Android Development: Mobile apps using Android Studio
- Web Development: HTML, CSS, ASP.NET Core
- SQL Databases: MSSQL – complex queries, stored procedures, data management

Tools & Technologies

- IDEs & Editors: Visual Studio, IntelliJ IDEA, Android Studio, VS Code
 - Version Control: Git
 - Automation & Productivity: Microsoft Power Automate, Microsoft Excel (data processing, reporting, automation)
-

EXPERIENCE

The Blokc Aug. 2018 - Oct. 2023

Intern

- Gained hands-on experience with blockchain technologies, smart contracts, and decentralized applications.
- Followed best coding practices and collaborated using remote tools for efficient teamwork.

Lawson Philippines Inc. Jun 2024 - Apr 2025

IT - Programmer

- Developed desktop and web applications to support multiple departments.
 - Designed and optimized SQL queries for improved reporting and data accuracy.
 - Contributed to process automation, reducing manual work and increasing efficiency.
-

EDUCATION

Lyceum of The Philippines - Manila, Philippines

Bachelor of Science in Computer Science

Lyceum of the Philippines - Manila, Philippines

Associate Degree - Software Engineering Specialization

Group Thesis

DISPATCH: An Android-based real-time tracking and monitoring system for civilian fire emergency report and firefighter fire emergency response with GPS utilizing Geo- hashing Algorithm.

- This exploration focuses on a Android application that alerts firefighters to emergencies in civic areas, enabling firetrucks to respond quickly and safely to incidents.

Role: Lead Developer

CERTIFICATION

MTA Certification – Introduction to Programming Using Java

Microsoft, 2019
